Community Service is defined as any volunteer activity that benefits the community, i.e. the student receives no pay or other credit for work done. This can include volunteer work at your church, Portland Christian Schools, the public library, the zoo, National parks, a hospital, non-profit organization, a summer youth camp, on a mission trip, etc. Helping relatives, family and friends are important but should be considered acts of love. These ventures will NOT be acceptable for your Career Education Requirement unless given prior approval.
